A mysterious new weapon has surfaced, triggering the FATE system for the first time in FPS gameplay. As players hunt each other around the world in their rocket-powered jet-packs, only one of them will emerge from the search victorious - all the other participants will be decommissioned. Did you know that every time a player's MOD is destroyed, the FATE meter increases by one point? Everyone has a chance at glory, but will any of them choose to take it? FATE System | New gameplay engine for FPS games NEW: Mod | MODs become the tools for the players to enhance the weapons and define their own playstyle NEW: Jetpack | Rocket-propelled jet-packs give players the ability to travel through the environment with complete freedom NEW: Forfeit | PLAYER ABANDONMENT All players that do not pilot a rocket-powered jet-pack will be decommissioned and fall to their death; all weapons that player has left will be available for the other players The game also features a mod system. This allows players to create their own missions and mods for their friends and the community to try out. Territories | Gunfire and explosions will shatter the urban environment Missions | Each mission will have its own story elements Modding | A modder's paradise New Gameplay Elements | You need to look carefully to see the details in the environment. Unique weapons will have alternate fire modes that are not used in single player INTRODUCTION 1. Dodge to avoid weapons fire 2. Gunshots will ruin buildings 3. Shoot from the Jetpacks: You'll be able to shoot while airborne 4. Sniper Rifle: Sniper rifles will be aiming at the player's position 5. Smoke grenades and Grenades 6. Camouflage Walls 7. Reach out and Touch a wall 8. Platforms and Docks 9. Automated turrets to fire for you 10. Gunfire 11. Detonators 12. Explosive barrels 13. Hallways with mines 14. Hidden tunnels NEW: Weapon Modifications | Players will be able to use their own weapons modifications in missions and in the single player game NEW: In and Outgame | The game is tailored to the experience of both single player and multi-player NEW: Highlighting screenshots of a cutscene will allow the player to focus on individual parts of a scene NEW: High
