The classic action puzzle game, and massively addictive counterstrike-clone, is back as an expansion pack for more fun! New enemies, and a new map will challenge your skills and willpower to the limit! But wait, that's not all...

Some secrets are harder to uncover now as well...

I know I just wrote this, but it's the truth. If you like the original game and the expansion pack, I'd appreciate it if you could please buy. There's no other way this can be made possible.
