Although there are obvious associations between anti-immigrant politics and the anti-immigrant sentiments of many mainstream and anti-fascist activists, it's hard to know for sure how many white supremacists and nativists are also anti-immigrant. That's because the numbers of white supremacists in the US have been notoriously difficult to accurately track, and even fewer white supremacists are interested in promoting their own racial nationalism. But there's a group of people who say they're interested in engaging in racist movements for a few reasons, at least some of which are related to race, though not always. I've identified a total of 14 people who've publicly identified as white supremacists, though not all of them have self-identified as white
